

OPERATING INSTRUCTIONS

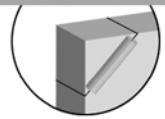

Press and hold the button on the side and pull **both lines** at the same time. Release the button and the lines automatically lock into place. *(Remove label stating to always pull both lines)*

To hang, place one line over a corner of a door and the second line over the other corner. *It doesn't matter which line is on which side.*

3. Back of Door

Make sure the plastic tubing is fully on the back side of the door.

To adjust Zip 'n Hang to the perfect height, simply press the button and zip up or down. As soon as you let go of the button, it locks into place.

Installing the Jumbo Hook

To hang large items, unscrew the hook that is at the bottom of the Zip 'n Hang. Then take the Jumbo Hook and screw it in place. Only turn a few times until it starts to get tight. *Do NOT over-tighten!*

**WARNING: Lines could present strangulation hazard.
Keep out of reach of young children.**
